
TIME WARP™

HIGH INTENSITY SERUM

Time Warp® rejuvenates skin with immediate, visible, lasting results. It helps reduce lines and wrinkles, tightens and lifts the skin, and relaxes facial muscle tension. It is particularly effective in tightening the difficult neck area and in reducing puffy eye bags. Our satisfied customers also report that **Time Warp®** helps eliminate age spots and acne scars, smoothes “crêpe” skin, shrinks and refines pores, produces a more even skin tone, and helps heal sun-damaged skin. **In many cases, results have been observed with the first application.**

Time Warp® contains more effective ingredients than any “Botox-in-a-bottle” type of product. Time Warp® contains these leading-edge ingredients: Acetyl Hexapeptide-3, Palmitoyl Oligopeptide, and Saccharomyces/Copper Ferment, along with our proprietary blend of **21 botanicals and Chinese Medicinal Herbs** that heal, tighten and firm skin while restoring texture and elasticity back to a more youthful state. Additional ingredients of note are: **Hyaluronic Acid, Rose Canina Oil, Green Tea, Marine Enzymes, Evening Primrose Oil, Algae Extracts, Co-Q10, Wheat Protein, Collagen, Vitamins E & C, and Retinyl Palmitate. All oils, plants, herbs, and flowers used are organic.**

Time Warp® is completely safe -- unlike Botox. Botox is a toxic poison that starts losing its effectiveness as soon as it is injected. Botox needs to be re-injected every 3-6 months, costing hundreds of dollars for each painful injection. Botox has a high risk for dangerous side effects.

Time Warp® contains no plastic! Most “Botox-in-a-bottle” type products contain plastic as the main ingredient that tightens the skin. Plastic clogs pores and prevents proper breathing. The tightening effect lasts only until the face is washed. **Time Warp® is beneficial with a cumulative effect. Your skin continues to improve with each application as you turn back the hands of time.**

Time Warp® is a highly concentrated topical serum that heals and improves skin. Only a few drops need be applied to cover the entire face & neck. **One bottle will last 2-3 months or more,** with average use, making it an extremely economical skin care beauty treatment.

Time Warp® may be used alone, however it works even better in tandem with its companion product, **TransformEssence® Skin Nutrition Cream.** It is suitable for both men and women.

TIME WARP™

HIGH INTENSITY SERUM

Customer Testimonials

Astonishing! That's the best word to describe the results I've gotten from Time Warp. I watched in amazement as my deep, dark under-eye bags shrank on the very first application as if they were punctured balloons. My skin is tighter and firmer, some fine lines have entirely disappeared, the texture is soft and supple, my neck looks decades younger, and people are astounded when I tell them my age is 55. All this is after using it for only one week! **Of all the products I've tried, serums, botox-in-a-bottle, night creams, etc., this is without a doubt the very best.** I'm hooked! Bless you for inventing this miracle in a bottle. – CS, Los Angeles

Since I have been using Time Warp, the fine lines on my face have all but disappeared. I use it every evening before I go to bed and in the morning my skin is noticeably smoother. I love the smell and will use it from now on to help my skin have a firmer and more youthful look. **I am 75 and “passing” for late 50’s!** – JML, age 75, Mt. Shasta, CA

My wife insisted I try Time Warp on my eye area. I was amazed when the bags shrank as I watched the very first time I tried it. My skin is tighter and less saggy. My skin color has evened out. It's important that I look youthful to compete in the age-biased computer industry, and **Time Warp is making a big difference.** Thanks! – EIJ, age 61, Redmond, WA

I am still pretty young and do not have wrinkles or saggy skin (yet!). However, I have been delighted with Time Warp. The skin under my eyes looks tighter and I'm thrilled! But even more exciting to me was Time Warp's effect on my acne scars. The darkened skin on my cheeks, left there by acne, is fading. As a matter of fact, the skin tone of my entire face is more even. **Time Warp is incredible!** – GW, age 37, Taos, NM

Before Time Warp, because my skin tends to be dry, I was using a rich oil to aid in keeping my skin moist. This caused me problems with clogged pores. When I used Time Warp, my skin cleared up, small age lines disappeared, and took on a more even look overall. **I am positively glowing.** Could this formula have more to it than meets the eye? -- TH, age 64, Tucson, AZ

I've been using Time Warp twice a day for only a week now and am seeing the deeper furrows on my brow beginning to soften. The serum soaks right into my skin leaving no oily residue, and I love the scent, as well. **Thanks for this great product.** – SM, age 59, Albany, NY

I am so pleased to have Time warp available to me. The first night I applied it to my sensitive, sun damaged/post menopausal skin (10 years in Hawaii-teaching scuba diving/surfing) it soaked in its healing properties. I could feel the tightening as an enlivening tingle. The next morning, my face looked 'fresh'. Even my husband noticed the difference. Time Warp tightens my skin closer to the bones while continuing to moisturize. This is the first time in years that I have felt comfortable and confident to be seen in public without using make-up foundation. It is wonderful to feel my skin no longer sagging. Truly, I'm looking healthier! **Time Warp you came just in time!** – FC, age 49, Santa Cruz, CA

WOW! WOW! WOW! I watched in the mirror as my baggy eyes tightened with the very first application. **This must be Magic!** I am amazed! – Dr. VSD, age 53, Malibu, CA
